

# CHURCH ACOUSTICS FEEDBACK

Please help identify troublesome sound problems and acoustics in our church by answering the following questions to your best ability:

1. Where do you ordinarily sit in church?  
**Please circle on the map the area/pew where you encounter sound problems.**

2. Identify specific problems – check the issues that describe your experience:

- Echo and excessive reverberation of the spoken word
- Sound of the spoken word not loud enough
- Dead spots
- Can't hear much at all
- Muddy sounds

Please provide as much detail as possible –
